CLARINET & SAXOPHONE CLASSICS

Samek
MUSIC

I am delighted that Clarinet & Saxophone Classics is celebrating its 25th birthday. What started in a modest way has grown to become a significant catalogue of single reed music: contemporary, mainstream and period performances recorded by international artists together with historical restorations. Indeed, it would be impossible to illustrate its breadth and depth in a single CD. Instead, I've chosen performances which reflect my personal journey and the collaborations I've enjoyed to give a flavour of what we're about. I do hope you enjoy listening and look forward to continuing to providing a focus for the wonderful world of the single reed.
